

What's running through your veins?

1,000g/50 servings
Fruit Punch, Lemon-lime,
Orange & Watermelon

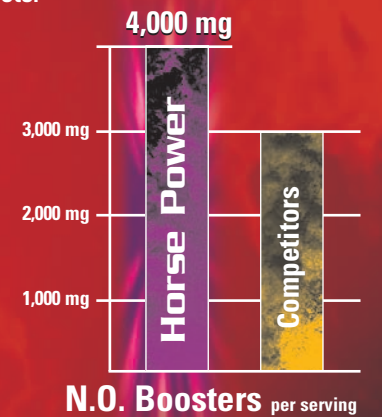

The World's First and Only 4,000mg N.O. Power Blend

What's running through your veins is the difference between a good workout and a mind-blowing workout. It's the difference between looking pretty jacked and having your veins jump out of your skin like the steel cables on a weight stack. Horse Power is a serious pre-workout Nitric Oxide booster and creatine blend that puts 33% more N.O. power in your veins than the leading products.

- *Immediate, Explosive Energy Rush*
- *Extreme Vasodilation*
- *Increased Strength & Stamina*
- *Faster Recovery*
- *Better Cell Volumizing*

4,000mg Arginine AKG + Arginine EE di HCl

Even the best-selling N.O. boosters only give you 3,000mg, or bury their boosters in confusing formulas. But Horse Power gives you a full 4,000mg of the most effective N.O. boosters – Arginine Alpha Ketoglutarate and Arginine Ethyl Ester Dihydrochloride – plus the added kick of Arginine Ketoisocaproate (A-KIC).

Triple Creatine Matrix

Horse Power's Triple Creatine Matrix – creatine ethyl-ester, tricreatine malate and patented Kre-Alkalyn® – allows more creatine to be absorbed into the bloodstream and delivered to muscle cells. Almost nothing is wasted or converted to creatinine. And there's no bloating, cramping or insane amounts of loading.

Put Your Old N.O. Product Out to Pasture

If your N.O. product isn't pulling its weight – or if you just want to know what it feels like to have the most N.O. power on the planet running through your muscles – put some Horse Power in your veins!
