

HOW DOES

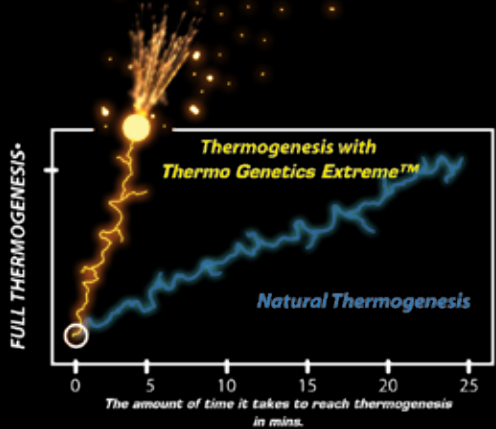

THERMO GENETICS

GELATIN FREE!!

EXTREME

HELP WITH THERMOGENESIS?

Thermogenesis is the process our bodies go through to burn our fat reserves. The problem is, naturally our bodies can take up to 25 minutes to reach thermogenesis! Anyone who is trying to lose weight knows that every minute counts.

Thermogenesis with **Thermo Genetics Extreme™** during exercise

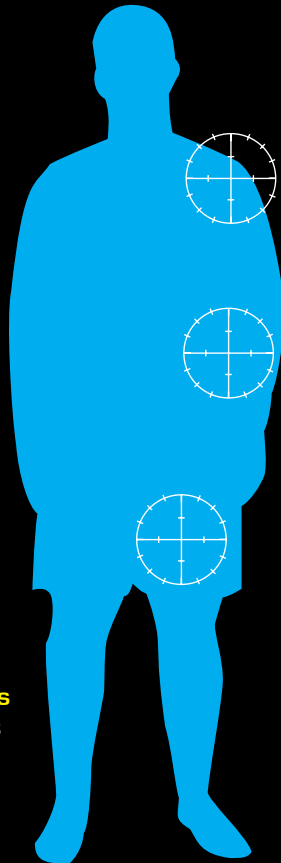

120 Liquid Gel V-Caps
Dietary Supplement

Since Thermo Genetics Extreme comes in the form of a Liquid Vegetable cap you get the fastest release possible which puts you into the thermogenesis process instantly!!*

LIQUID VEGETABLE CAPS

Vegetable Capsule
Kosher Certified**

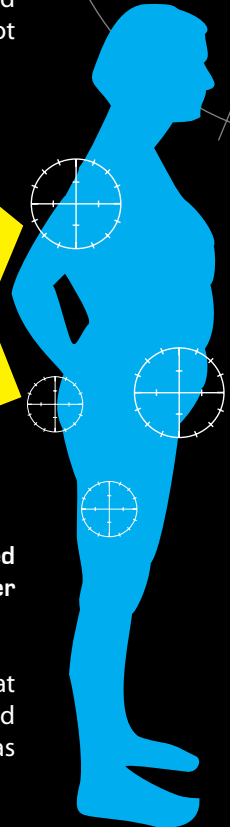

Due to our use of easy to swallow Liquid Vegetable Caps, Thermo Genetics Extreme™ is 100% BIO - AVAILABLE!! This means that there are no other steps in the breakdown process between swallowing our supplement and its absorption into your body. In caplets, tablets, and conventional capsules there are several factors that occur in the breakdown process which lead to the loss of key ingredients in a supplement. Thermo Genetics Extreme's™ design cuts out the middle men and gives you the most rapid release possible!!! Over time oxidation occurs in gelatin capsules. This means the ingredients inside of the capsules will eventually harden. Due to our advanced manufacturing process, internal oxidation does not occur in our Liquid Gel Vegetable Caps!!*

THERMO GENETICS EXTREME™
targets fat deposits!

RAPID RELEASE LIQUID DELIVERY = INSTANT ENERGY AND FAST RESULTS!

The Genetics Tech® research team has developed a truly unique delivery system that makes all other diet and energy products obsolete!*

We use a synergetic blend of 16 cutting edge, fat burning ingredients that have been clinically tested and proven to better target problem areas such as the abdomen, legs, buttocks, and hips.*
